Windows Set 2022 [New]

⬚ Works Under Control Panel ⬚ Remove all redundant files in your system. ⬚ Used to optimize system. ⬚ Manage Windows Services easily. ⬚ If you are using a virus-oriented Windows, you should use "Windows Set" to protect it. ⬚ This software will automatically detect and remove some unwanted redundant or harmful program to speed up your computer. ⬚ This software will remove some unwanted file like cache file, temporary file, log file etc. to speed up your system ⬚ This software will support uninstall of some unwanted program. ⬚ You can login into your account from remote computer to manage your files and services on your system. ⬚ Running on the standard version, you can scan system, remove spyware, hijacker, and other unwanted files. ⬚ The problem of uneven startup performance of your system due to the side effect of "Update Error 8" and other is definitely eliminated. ⬚ The problem of too many PC startup programs like "Excel", "PowerPoint", "Word", "PowerShell", "Java" etc. can not be erased. ⬚ Some problem like "Update Error 8" etc. can not be solved by "PC Doctor". "Windows Set" is totally different to "PC Doctor". "PC Doctor" can scan your system and detect the problem of "Update Error 8" but can't solve the problem. "Windows Set" can be used to detect and solve the problem. ⬚ In Windows Set, you can scan your system and see if there is a virus in your system or not. If any virus is detected in your system, you can easily remove it. ⬚ "Windows Set" also has a "Virus Scanning" and "Scan Files" option. ⬚ If you find there is a virus or other unwanted program in your system, the "Windows Set" will do the rest for you. "Windows Set" will remove all virus files, ads, unwanted toolbars, toolbars, adware, spyware, hijacker, virus, rogue applications, worm etc. to protect your system and data files. ⬚ If a program is installed by "Uninstall" in "Windows Set", you don't need to run "Windows Set" again to check that program and then remove it. ⬚ "Windows Set" can protect your private files
