File size: 3.32 MB. dc-unlocker client software V2.00.0423 Changes between different versions · In the previous versions, the commands to load the unlocker and the default username and password were written in a configuration file called ModemSetting.ini. · In the previous versions, the commands that unlock the modem were written in the DcClient.dll and the DcClient.exe. · In the previous versions, the ModemSetting.ini file was needed to unlock the modem. It only made the activity of unlocking commands (of the DcClient.exe and DcClient.dll) more accessible. · In the previous versions, the DcClient.dll and DcClient.exe were for command line use only. · In the previous versions, the DcClient.exe and DcClient.dll were for command line use only. · In the previous versions, the DcClient.dll and DcClient.exe used a special type of calling: now, these commands are called using the SC\_MODEM\_FUNCTION\_UID message type.
