To make the life of any programmer much easier, a set of macros have been designed to make his life a lot easier, these macros will allow you to do all your standard work with your macros, ie: Copy, move, delete and format a block of text all in one go. When installing the program, choose the "custom" settings. For example, in this installation the contents of the txt file are:

```
2007030900140412000010034190000010000000400000050000
```

10034180000000710034190000000200000000000000 With such settings the command line will work as this:

1. Opens the document you wish to extract
2. Extracts the data from the document
3. You are then presented with the output window where you see the data.
4. All data recovered can be saved as TXT file.
5. All data extracted can be saved as TXT file.
6. And if the document is corrupt, the data will be saved as TXT file.
