"HEY, WHERE'S ALL THE GOLD?!?" is the scary cry of evil beasts, each with their own unique abilities, that can react very quickly to your every move. Using a brilliant "lasso" mechanic you can catch enemies and drag them out of the way while they turn to stone - if they touch the ground for too long, that's it - they're done! You need to be quick but not reckless, but a spin jump will save you on a tight corner or when you're under serious fire! You'll also have a "Lasso" skill that lets you scoop up the bugs and other enemies in the world. It's up to you to avoid being captured! As you progress in the game you'll be challenged in a set of enemy-plagued worlds and then race against your friends to see who can complete the game in the shortest amount of time. You can choose to play the entire game on your first try by setting the level to be completed at a low difficulty. Or you can always choose to tackle it on your own and see how long you can survive the onslaught of nasty critters that roam the screen. If you play on the highest difficulty, you'll have to contend with faster moving and more often spinning, angry enemies that will try to get their hands on your Android, so it'
