An Epic Action RPG Made for Fans of the Dark Souls Series The game was developed by FromSoftware, creators of the Dark Souls series, and is the first action role-playing game developed by FromSoftware, which has been known as a "Souls-like" developer. • Massive World with Rich Contents The world of the game takes place in the Lands Between, the dimly lit world between the Upper and Lower Worlds, and in a great city called Atreia. The world is roughly the size of the land of Earth combined. Large amounts of useful items can be obtained, and you will need to use your navigation skills to discover them. • Influenced by the Dark Souls Series The world is filled with boss monsters of a level of difficulty similar to that of the Dark Souls series, and there are also large amounts of weapons and materials whose properties are vaguely similar to those of the Dark Souls series. You will be able to enjoy an experience similar to that of Dark Souls with the joy that comes from exploring, as well as the feeling of satisfaction gained from defeating enemies. • A Dramatic Adventure where Layers Collide The game is divided into the "Chapter," and you can freely select the order in which you play the chapters. Chapter chapters are connected by designating a "Chapter 3" as a door that you can freely select, allowing for a variety of options. There are various encounters, and it is highly likely that you will get lost in the world due to bad map design. In "Chapter," you will explore many different scenarios using your own path.
