Neighbours From Hell comp is a game that will take you on an unexpected trip. The player must solve puzzles while sneaking into someone's house. There are some cats that he has to avoid. But the best is that there are tricky characters along the way. All of them are there to give a dare to the player. But the problems are that the player is not really in his right mind and he has no time to react. All of this is well done and in a cartoon style. The game is 3D and the images are pretty funny. Play it for free and see for yourself. Gameplay: You're going to play some house around town, so this is not the time to explain the gameplay. You have to discover what to do and what to get. In a house, the player must avoid the cats. There are 6 of them that have to be avoided. But what if the player is already there? From then on the player needs to get a weapon. He starts the game with a knife, and he can get more weapons later. And while doing all of this he must avoid the cats. To be honest, it's a good thing that the player is not in his right mind. All of this is good in the game and he gets a lot of bullets to shoot the cats. The cars that drive in the surrounding will help the player, but he must avoid them. There are more of them than the cats, but the great thing is that the cats are so charming and the player is in a funny situation. Game Mechanics: You've gone through a similar puzzle in some other game. This is not the point. The best thing is the cat puzzle. It's great and it gives you a good feeling, but in this case, you get kidnapped. The gameplay is really good and it's nice that you get a wide range of weapons to solve all of the puzzles. The jokes are great, but the best thing is the animation in the game. There are more than 10,000 pieces of animation, and the graphics are great. The controls are simple, but well done. The controls are easy and the mechanics are good. The controls are smart because they become easier as the game goes. The game is a really good one, and it's really hard to get through it. The graphics are really good and it's fun. The story is well done and it's fun to play. The controls are quite good and they are simple. The controls are good 648931e174
