Photoshop is available for the Windows, Mac OS, and a variety of Unix platforms. It's also available for free as part of the Creative Suite, which includes Flash, Illustrator, and Dreamweaver. * * * # Replacing Photoshop There are many other alternatives for image editing available for both professionals and beginners. Here are a few that I've used: * **Snapseed:** Snapseed is an interesting free photo-editing app, as the name suggests. The iPhone version of Snapseed is far more robust than the computer version. Snapseed, also available for the iPad, is my favorite so far. * **PhotoSuite Express:** This easy to use, free photo-editing app is part of PhotoSuite, a free collection of about 12 free programs for editing, organizing, and printing. It includes an image resizer, an image and photo book creator, and other tools. * **Microsoft Paint:** The free, simple Paint program on the Windows desktop is a good way to manipulate a picture. You can use the paste and crop tools, and you can use the paper and pencil tool for drawing if you're a beginner. * **Adobe PhotoShop Lightroom:** The Lightroom photo editor lets you manage and organize your photos; resize, retouch, and edit your images; and then share your photos with friends and family through email, YouTube, and social media. * **MediAngular Photo Editor:** This free app offers a simple photo editor with features like undo and redo, resizing, and much more. * **Effervescent:** Effervescent has a very basic photo editor with one feature, crop, that is great for beginners. Effervescent works only on the iPad. * * * # Tagging photos for sharing online Photo sharing may not be your primary use for photo editing, but you should know that some basic changes can help them be used for other purposes. In addition, some changes that you make are permanent, so you may want to back them up to a computer before you make the photo available online. 1. **Open the image in Photoshop.** 2. **Click the Tag Selection tool, as shown in** **Figure** **8-9** **, and then drag out a selection.** ** You can also select the entire photo and

Authors hired writers to pen books, which have become the classic publications. This trend has also been visible in the last 10 years. The turn around was partially because the Internet has increased the access to a large number of followers. It has also gave a huge platform to write about any product. Some publishers started to see that writing was the best way to go. This trend has continued and more publishers have adopted this style. Due to the rise of social media and other networking sites, publishers realized that they can reach out to their customers by creating a platform where they can share their opinion and may send them a discounted price. This has proved to be very successful. Autobiography and other non-fiction books are becoming increasingly popular. People often share their past experiences through these books. This trend has also become popular. The rise of social networking is the reason why non-fiction books are extremely popular. Facebook and other networking sites have opened a door for people to ... People make use of social networking sites for various purposes. It all depends on the type of networking site that they use. Some use it as a place to meet new people while others use it to connect with their families. There are various different networking sites on the Internet. This is why some prefer to use a single networking site for all purposes. Social Networking Sites Most people have a Facebook account. Most people use it to keep in touch with their friends. Some people use it for business purposes and connect with business affiliates. There are various LinkedIn accounts. Many people use it to connect with people who work in the same industry. It is also popular to connect with people who work in different niches. People mostly use Twitter to share their opinion on various topics. Most people are attracted to Twitter because of its 140 character limit. Business Some people use a networking site to promote their business. They want to create a network of business people who can provide a variety of business-related services. They can also provide some valuable insights about their business or... While the Internet has helped people to stay in touch with their family, it has become increasingly difficult for a person to communicate with people who live outside of their home country. E-mail is a great tool to stay in touch with people who are not physically close. It allows
