Minecraft W Air Texture Pack Tutorial 2018 - Step By Step Guide! Welcome to another tutorial for the awesome Minecraft W Air Texture Pack! And this time, we will be showing you how to use a great tool known as Photoshop. In this tutorial, we're going to be learning how to: -Texture a new texture -Change the surrounding colors -Set up the color scheme -Change background textures -Rotate and blend In this tutorial, we're going to be learning how to: -Texture a new texture -Change the surrounding colors -Set up the color scheme -Change background textures -Rotate and blend Note: I am not affiliated with the creators of this pack. This is just a tutorial to show how to do basic texturing in Photoshop. You can also check out the author's page at:

_____ This video is Part 3 of my series on the Minecraft W Air Texture Pack Tutorial! In this Minecraft W Air Texture Pack Tutorial, we will be learning how to texturing something new in a game! Let's get started! 1. Set up your Background First thing we're going to be doing is working on the background. I'm going to be using the size of 4:3 for this tutorial. 2. Texture a New Texture Click File, then New. You'll see three boxes. Click Texture. You'll see a preview box with any texture that you have. Click the texture that you want, then click OK. 3. Change the Surrounding Colors Now, we're going to change the colors. Click OK on the preview box of the texture. Then, click on the color box and type your colors in. You will notice that the background will have little square boxes next to it. Click on the lightest color. If you want to make any part of the texture darker, choose a darker color and go into the box and select the option to darken. 4. Set up your color scheme Now, we're going to be setting up our color scheme. First, click on the drop-down box, then choose your color scheme. We're 6d1f23a050
